ND#4		<i>0,5÷4</i>	190x72x21	470

Description:

Brand new generation of mechanical tool with a unique mechanism to reduce operator effort. Small and compact, with ergonomically designed handles for ease of operation.

Thanks to its small and compact dimension with ergonomically designed handles, it permits ease of operation.

High quality materials combined with advanced design and manufacturing technology, produce a reliable tool with a guaranteed consistent, crimping operation.

Technical details:

- Body, mechanism and mobile handle are made of special steel heat treated and with the surface protected by phosphate treatment
- Die inserts are precision casted made of high resistance special steel with surface protection by chemical nickel treatment
- Handles of thermoplastic polyester are blue colour
